

Saurabh Anand

saurabh.anand122@gmail.com  LinkedIn  GitHub  GeeksforGeeks

Professional Summary

Aspiring Full Stack Developer and Computer Science undergraduate with hands-on experience in MERN stack development, REST APIs, authentication systems, and responsive web applications. Skilled in building scalable frontend and backend applications using React.js, Node.js, Express.js, MongoDB, Flutter, and Firebase. Strong understanding of Data Structures & Algorithms, debugging, and software development practices.

Education

United Institute of Technology, Prayagraj <i>Bachelor of Technology in Computer Science & Engineering</i>	2022 – 2026 <i>Pursuing</i>
Kendriya Vidyalaya COD Chheoki <i>Intermediate (Class XII)</i>	2021
Kendriya Vidyalaya COD Chheoki <i>High School (Class X)</i>	2019

Technical Skills

Languages: C++, JavaScript, Java, Python, Dart
Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Flutter
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, Firebase, MySQL, SQL
Core Concepts: Data Structures & Algorithms, OOP, DBMS, SDLC, Debugging
Tools: Git, GitHub, Postman, Vercel, Cloudinary

Projects

- Sehat Connect** | *Flutter, Dart, Firebase* **Live Link**
- Developed a cross-platform healthcare connectivity application using Flutter and Dart with responsive UI design principles.
 - Implemented secure Firebase Authentication and real-time database integration for seamless experience.
 - Integrated RESTful APIs and Firebase services for real-time data synchronization and cloud storage.
 - Optimized application performance and scalable architecture using reusable widgets and efficient state management.
- Real-Time Chat Application** | *MERN, Socket.io, Tailwind CSS, Daisy UI, Cloudinary* **Live Link**
- Engineered a full-stack real-time chat application using MongoDB, Express.js, React.js, and Node.js.
 - Integrated Socket.io for bidirectional real-time communication supporting instant messaging and live updates.
 - Implemented JWT Authentication, protected routes, secure login/signup workflows, and Cloudinary media uploads.
- EngineersMaterial.in – Study Resource Platform** | *React.js, Node.js, Express.js, MongoDB* **Live Link**
- Developed a scalable educational platform enabling engineering students to access study resources online.
 - Built RESTful APIs and implemented API-driven backend architecture using Node.js and Express.js.
 - Designed optimized MongoDB database schemas improving backend performance, consistency, and data management.

Certifications & Training

- AI-Enabled Applications for Customer Service – IBM
- Artificial Intelligence Fundamentals – IBM
- Summer Training in Java & Java Framework – United Institute of Technology
- Summer Training & Internship in Application Development – Softpro India
- Google Cloud Study Jam - Ranked among Top 50 Participants

Achievements

- Secured 2nd Position in Idea Pitching Startup Event at United Institute of Technology.
- Built and deployed multiple full-stack MERN applications.
- Strong problem-solving and debugging skills and solved more than 300 problems on GeeksforGeeks.
